*In Dedication . . .*

to our sponsor and teacher, Mrs. Carmichael,  
in appreciation of her efforts and patience in  
presenting our class play and publishing  
"Hoss Sense" and "Hoof-Beats".

## FOREWORD

We, the senior class of '46 with much pride and pleasure, give you the second edition of "Heor-Beats".

We believe that you will find recorded here some of the most vivid and pleasant experiences of this school year. We hope that we have produced an annual which the staff and the student body feel does justice to the traditions of the F. H. S. Ranch.

When you look through its pages, we hope it will bring back to you many pleasant memories of days on the range.

Join us in wishing for a better annual next year, when, lets' hope, better materials will be available.

The Staff

CHAPTER II

THEORY OF THE EARTH AND ITS HISTORY

1. The Earth is a sphere, and its surface is divided into four parts, called continents. The continents are Asia, Europe, Africa, and America. The oceans are the great bodies of water which surround the continents. The oceans are the Atlantic, the Indian, the Pacific, and the Arctic.

2. The Earth is made of different layers. The outermost layer is the crust. Below the crust is the mantle. At the center of the Earth is the core. The crust is the thin layer of rock which we live on. The mantle is the layer of rock below the crust. The core is the innermost layer of the Earth.

### A MESSAGE FROM THE FOREMAN

As this Annual is , in a way , a memorial to the senior class, I want to use this opportunity to tell you some of the reasons why I think this is one of the very best senior classes with which I have ever had the pleasure of dealing.

By virtue of my position, I receive too many complaints and reports of student misconduct, and it is quite a pleasure to me to receive compliments instead. I have had very few complaints and a suprisingly large number of compliments from the teachers and from patrons of the school, praising the senior class or members of the senior class for their attitudes, interest, and accomplishments, and improvement. A complete enumeration of all the accomplishments of this class would be impossible in this short space, but I do not know of any group in the school or community that has been better represented in all activities for school and community, improvement. Whether it is athletics, dramatics, music, church and Sunday school work, vocational Agriculture club work, drives to raise funds, school ground or park improvement, the senior class has been well represented. Whenever people outside our own community select State Presidents for F. F. A. , state winners for dress making contests, representatives to national meets, and things of that sort they do not just reach into a hat and pull out a name.

The senior's sense of right and wrong and attitudes of good sportsmanship and good fellowship have gone a long way in making this a better school in which to be. We know that much of the success of this class is due to the efforts and the heart felt interest of your sponsor, and I am sure all the seniors would give her full credit.

My sincerest wish for you as you leave this school is that you will go out and make this old world a better and a more pleasant place in which to live, just as you have made this school and community a better place during this past year.

Sincerely,

*B. B. McAlister*

CHAPTER THE FIRST

It was a fine day, and the sun was shining brightly. The birds were singing, and the flowers were in bloom. The children were playing in the garden, and the old man was sitting on the bench, looking at them with a smile.

The old man was a kind and gentle soul. He had lived a long and full life, and he was now enjoying the fruits of his labor. He had seen many changes in the world, and he had learned many lessons. He was now a grandfather, and he was proud of his grandchildren. He was now a man of peace, and he was happy to spend his days in the garden, watching the children play.

The children were a joy to the old man. They were full of life and energy, and they were always bringing him new stories and news from the world. He loved to listen to them, and he loved to tell them his own stories. He was a man of many secrets, and he was always ready to share them with the children.

The garden was a beautiful place. It was full of flowers and plants, and it was always full of life. The old man had spent many years in the garden, and he had learned many things about the plants and the soil. He was a man of many secrets, and he was always ready to share them with the children.

THE END

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance and that it has not been completely solved. The author then proceeds to a detailed analysis of the problem, showing that it is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient. The author then concludes the paper by stating that the problem has been solved and that the method proposed is the best.

2. The second part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient. The author then concludes the paper by stating that the problem has been solved and that the method proposed is the best.

## 1946 CLASS HISTORY: "STONES IN THE BRIDGE OF TIME"

Ladies and Gentlemen:

The presentation of the history for the Class of 1946 is an honor for which I am grateful. There comes a time in every organization when it is fitting that a record be made of noteworthy events in the lives of its members.

Lives of great men are based for the most part on minor events. A sequence of minor events carried over a long period of time becomes itself the career of man or woman in the same way that small stones properly cemented together will result in the building of a great bridge. The composite of such events represents the history of a generation. This historical record passed on from one generation to another soon gets to be a record of the human race.

It was less than ten thousand years ago that man made the first permanent written records of his acts. By such records he could for the first time pass on to generations to follow the things he had learned. Until then there was little opportunity for men to learn and profit by experience of those who had gone on before. Thus a person's life was largely a repetition of the same errors men had been making since the beginning of time.

When people started making records of what they did, then and not before did his experience start to accumulate and be passed on to the coming generations. Only then did it become possible for a man to begin to avoid some of the errors which had been constantly repeated for nearly half a million years. Only then could a new generation of young people start the work of their lives where their fathers had finished. Only then did progress become continuous through succeeding generations of human lives.

The life history of an individual man or woman begins with birth and ends in the grave. If we went back sixteen or eighteen years in our lives some interesting notes could probably be taken from views of proud parents of persons one year old then, yet who graduate here today. For instance: Boy, it might say; twelve months old, very fair complexion, weight twenty pounds, height immeasurable. Eyes are the brightest blue you ever saw, has the cutest dimples in his chin, sticks his toe in his mouth, tries to say words. Name Ladson Worley.

We could follow them for a few years and find them in the first grade--yes, 8 of those who graduate here tonight: Ladson Worley; Fayrene Butler, Iona Haragan, Alton Wright, Lenoria Helmer, Mary Campbell, and Jimmie Medlock.

Mrs. Ray J. Lofton, our teacher in the first grade, found boys and girls alike a noisy crowd. Their eyes were bright and trusting but contained a twinkle which caused wonder as to what mischief might have been back of their heads. They were curious about everything and could ask more questions than could be answered by a college professor.

We were guided the next few years under the leadership of Mrs. Ora Pearl Morrison, second grade, Miss Dutton third grade, Miss Womack fourth grade, Miss Myrtle Johnson fifth grade. Paul Gregory, Wilma Anderson, Travis Russell joined us the second year.

Mr. Toliver and Miss Finely were sixth grade, teachers. This year we were joined by Wynona Haragan from Hobbs, and Marie Shirley from Antelope, Texas. Mr. Toliver and Miss Finely were also the seventh grade teachers. Jaenene Francis joined us.

As our eighth year began, there were 54 students enrolled. 46 graduated. Because of this being such a large class we were divided into two rooms, and were taught by Miss Ruth Smith and Foy Jones. Ailene Turner joined us that year.

In the fall of '42 the largest freshman class in the history of Floyd School accepted their school work with words of protest, yet they would not have missed it for anything. The enrollment for the year was 51. Mr. L. F. Dohner was sponsor of the class. A very lively group we were--noted for our great plans. But there is good in that. The world needs people with a new point of view and a fresh slant on things.

We started our Sophomore year with 33 students; with Mrs. Johnston as our sponsor. Our happy group was joined by Oleta.

Our Junior year we began our work with enthusiasm, for we began to realize that we were part of the Old Floyd High. Our sponsor was Mrs. Vivian Meyers. The events so eagerly planned our Junior year were the Junior Carnival and Junior-Senior Banquet. This year we gained three members that we are very proud of: Martha Jo Butts, Neva Goff, Weldon Reed, but the end of that year we all felt a great loss as we realized that our old friend, classmate and class president for three years, Travis Russell, wouldn't be back our senior year because he had joined Uncle Sam.

Our class roll was completed when Mary Lynskey rejoined us this year. The coveted goal was now in sight. Seniors we were with a last big chance to dream up new and better things to add to the neverending stream of progress. Our deepest thanks and appreciation go to our senior sponsor, Mrs. Carmichael. May this class be a credit to the future; the past is now history.

## WILL

LAST WILL AND TESTAMENT. We, the Senior class of Floyd, in the county of Roosevelt, and State of New Mexico, being in perfect health and memory, do make and ordain this our last will and testament, in manner and form following:

First: To our school we leave behind our many memories of the good times we have had all through school.

To our Principal, Mr. B.B. McAlister, we leave pleasant memories of our four years together. Our respect and Admiration we bequeath because of his worthy example and counsel.

Third: To our sponsor, Mrs. Rubie Carmichael, we leave behind, as a symbol of her never-tiring guidance all the love and devotion we hold for her. May the Seniors-to-be have the same true guidance that we have had.

Fourth: To the teachers of Floyd High School we leave all the advice, information, reproofs, and worries that they have so freely given us.

Fifth: To the on-coming Seniors we grant as glad and glorious a graduation as our own.

Sixth: From each individual we hereby leave:

J. D.'s quietness and willingness to Troy Chism.

Pudge's winning ways with girls to Coy Jones.

Mary's ability to Lanell Lee.

Weldon's Basketball ability to Troy Kent.

Wynona's place as Editor of "Hoss Sense" to Natalie.

Nonie's ability to keep her mind on her lessons to Jake.

Martha Jo's place as Senior Queen to the luckiest Junior.

Ladson's ability to have acceptable excuse for each undone lesson to R. T. Toliver.

Fayrene's gift of gab and appetite to all shy and over-lean freshmen.

WILL

Olcta's good nature and sweet disposition to Betty Jo.

Marie's ability to get straight "A" average in Book-keeping to Clinton Imoc.

Neva's place as Editor of "Hoof-Beats" to any industrious Junior.

Alton's Ability to think up excuses for getting out of Study Halls to any person who can use it.

Jimmie's masculine handsomess and dynamic tension to the Sophomore boys.

Wilma's Matrimonial success to the first lucky girl.

Jaenene's secret passion for Van Johnson to Fannie Sue.

Iona's ability to sing Western songs to the Junior boys.

Ailene's ability to always have her Government to any future politician.

Mary Elizabeth's ability to be a Senior but take classes with the Juniors and Sophomores to any hard-working Freshman.

Travis' ambition to be an Aviator to Wesley Andes. (Rusty is now in the Infantry).

Inez's ability to make a good wife and housekeeper to Waunell Craig.

Finally, we hereby name as the sole executor of this will, our sponsor, Mrs. Carmichael.

IN WITNESS WHEREOF, we, the class of Nineteen Hundred and Forty-Six, have set our hand and seal on this Sixteenth day of May, Nineteen Hundred and Forty-Six.

M. Carmichael (SEAL)

WITNESSESS:

L. Bedford

Grace Filler

YOUR PROFESSOR KNOWS  
1966

By abra-ca-dab-ra, I fell for Bob's methods astounding,  
My powers like those of our good friend Aladdin are ample.  
A mild case of Springtime has smitten your Science Professor,  
Your future I straightway disclose to you now as a sample:

Marie! Marie, a girl of charm and grace,  
Whose virtues are reflected in her face,  
Will live in peace and plenty all her life,  
A housekeeper de luxe and a happy wife.

Our friend Wynona Haragan, has a very small voice,  
But great big emotions and diction quite choice,  
So she'll be a radio crooner someday,  
And sob all her troubles in ether away.

Paul!! A plumber working overtime,  
With charges huge, and nerves, sublime,  
Paul's future plain I see,  
A very wealthy man he'll be.

Fayrene!! Her fertile brain and ready wit,  
Proclaim at once the job she'll fit,  
Fayrene will write the perfect story,  
Thus covering herself with glory.

Jo! With gestures wide and voice intense,  
At speaking pieces she's immense,  
And Martha Jo upon the stage,  
Will soon become the nation's rage.

Jaenene will be an artist who,  
Will mural decorations do,  
And be as well a Painter,  
Who'll make poor Rembrandt's glory fainter.

Mary Campbell! Not fond herself of overwork,  
She can't endure that others shirk,  
So Mary Campbell will run with glee,  
A great employment agency.

I hope that this generous sample,  
Has proved that my powers are ample,  
But penning a rhyme is hardly my line,  
So ab-ra-ca-da-bra!! Ca-dab-ra!!

J. D. Cooper became the pullman conductor on the  
Broadway limited, solely to meet the famous passengers.

Weldon Reed, an astronomer, is studying the heavens at the seashore with a beautiful girl assistant.

Alton Wright became a steam riveter. He also puts nuts in the new Sanitarium.

As we look further down the line we see Neva Goff designing crossword puzzles, magazine covers, and necktie patterns.

Lenoria Helmer became the private secretary of a huge corporation in Kentucky.

Ailene Turner became a chautauqua lecturer on, "Beauties of Nature and the Value of a Smile.

Iona Haragan became the leader of dramatic soprano at the Chicago Opera company.

Ladson Worley became a architect, designing filling stations and halls of fame for the government.

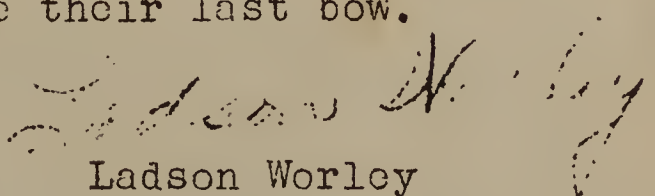

Mary Lynskey became a movie usher so she could see all the shows.

Jim Medlock became a big farmer in Eastern New Mexico who raises winter wheat and summer squashes.

Wilma Kimbell became the owner of a pet shop back in 1950 and is still specializing in selling eels, eschneumons, and olephants.

Oleta Reed became an instructor in golf, at five dollars per lesson.

"Now let us be candid and speak out our mind,  
Their equal as students 'twill be hard to find,  
So in peace we will leave them the good Seniors, who now,  
Have taken their finals and made their last bow.

  
Ladson Worley

## SALUTATORY

### "THANKFUL FOR BEING AMERICANS"

Ladies and Gentlemen:

It is an honor indeed for me to have the privilege of welcoming friends, parents, teachers and fellow students here today for this most important occasion of our school life. In this opening statement, it seems fitting that, on behalf of the Class of 1946, it should be said that the thing for which we are most thankful is simply that we are Americans.

While high school pupils of other lands have been sent to war or to factories producing war materials, we have, for the most part, continued our education without interruption. Those fortunate enough to graduate from schools of many other lands are going out into countries laid waste by war and in which there is little food, inadequate clothing and in which the future is dark and gloomy. In contrast with that we who today finish in American schools go out facing a period of peace and prosperity unequalled by any other anywhere in many years.

We have come to the parting of the ways. How much we have benefitted from our school life has depended somewhat upon the individual. We appreciate the interest you have taken in providing a good school for us and we appreciate the many hours in which our teachers have labored faithfully in order that we might make the most of our opportunities. The schools of our country may justly be proud of their part in developing the spirit of free people and private enterprise in the youth of today from whom the leaders of tomorrow will arise.

Our graduation here is only a symbol of what is going on in thousands of communities across the land, all with similar formality, practically everyone with a different meaning because of different traditions and community interests, but all alike thankful for being Americans.

Being grateful that we are Americans does not mean that we should try to make other countries like ours. Our problem should be to try to change other nations of the world to conform to our own ideas of what is good. Instead we should become more tolerant toward the attitude, ideas and aspirations of other countries.

The background of education, varied interest, and understanding is perhaps the most important factor in our country. Basic in all this is education itself. As we are thankful for being Americans we are likewise thankful for good schools. So far as we are individually concerned our gratitude is to you, our parents and friends, for providing this school for us, this school being itself the basic unit of that which is America, for which we, therefore, thank you.

## CIVILIZATION'S GREATEST CHALLENGE

Parents, Teachers, Friends, and Classmates:

On behalf of the Senior Class of 1946, I wish to express our appreciation of your interest and your presence at these exercises which represent the formal closing of our high school training.

It is our belief that we have inherited from you, our American parents, the greatest inbred capacity for organization and the greatest resource of idealism which exists anywhere in the world. Such a heritage carries with it an equally great responsibility. The leadership in world affairs can best come from such a people. The provision of such a leadership is civilization's greatest challenge. With willing hands and strong hearts we step forward to accept humanity's greatest challenge.

I am confident that I voice the sentiment of all the members of this graduating class when I say that we are deeply grateful to our high school teachers for the careful training they have given us and for excellent samples of leadership they have set before us. The undeniable fact is that the influence of such American schools as this is the influence which has proved to be the greatest force in human relations of the world.

Whatever measure of success we attain in the life which is ahead of us certainly in part will be due to the teachers who have guided us for the four years of our high school course. Perhaps we have felt curbed at times, but curbing and restraining of impulsive human being is an important element of peaceful living. It is something which we have just passed.

The associations we have had here have been our good fortune. The good training, the wholesome environment, the high ideals received here are commodities of the highest value. We are grateful for the fine background which our school has afforded.

Many of today's graduates will go on to other institutions of learning for further study. Others by their own choice may start immediately out upon careers in business, farming or otherwise to the individual liking. In whichever direction we go there lies before us the greatest challenge which life has ever thrown before a graduating class.

THE UNIVERSITY OF CHICAGO

The University of Chicago is a private research university in Chicago, Illinois. It was founded in 1837 and is one of the oldest and most prominent universities in the United States.

The university is known for its commitment to academic excellence and its wide range of research programs. It has a long history of producing world-class scholars and leaders in various fields of study.

The University of Chicago is a member of the Association of American Universities and is ranked among the top universities in the world. It has a strong reputation for its research and its commitment to the advancement of knowledge.

The university is also known for its commitment to social responsibility and its efforts to address the needs of the community. It has a long history of providing financial aid to students and of supporting various social and cultural programs.

The University of Chicago is a leading institution in the field of higher education. It is a place where students can find the best of both worlds: a rigorous academic environment and a supportive community.

The University of Chicago is a place where the future is being shaped. It is a place where the brightest minds are coming together to explore the frontiers of knowledge and to create a better world for all.

As high school students during the past four years, we have looked out upon the greatest struggle in history. We have watched that struggle unfold, run its course, and terminate during our high school years. We have not been privileged to take an active part, yet we have seen clearly the ideals for which our older brothers have fought and some have died.

Graduation in a time like this carries with it an immense responsibility. It is a responsibility for shaping our common destiny. Besides being a responsibility, it is a still greater opportunity. It is an opportunity for the exercise of ambition, energy, honesty and clear thinking.

The exact nature of that opportunity is not certain. Some have not the remotest idea what they are to do or be. Many who are leaving high schools today are going to engage in work which has not yet appeared.

We are thankful that we are privileged to enter the world in this glorious period of its history. What lies ahead of us we can only guess, but we are going out determined to play our parts well and to be an honor to the school from which we are being graduated.

HI! HO! Pardners,

As we halt this drifting herd at the trail's end and gather around our last campfire, many thoughts come to us -- thoughts of sadness.

The herd broke into trail nicely, even if some bad storms struck us. We know that no herd goes over such a long trail without trouble.

On this drive covering twelve years, all the ties which exist have become cemented. We've learned to know each other, and can never forget the part each has played.

Now, that we are all well-mounted and riding down the trail to a new future, we say to those who follow us --- The F. H. S. Ranch is yours, boys and girls, remember the best is none too good for you; take care that fences are kept repaired and the profits will be higher for you.

So long, Pards,

January 1891

I have just received from Mr. [Name] a letter of introduction to Mr. [Name] of the [Institution] at [Location].

He has been very kind to write me and to ask me to visit him at his home at [Location] in the month of [Month].

I have been thinking of doing so for some time, but have been unable to find time to do so. I am now at [Location] and am very busy.

I am very glad to hear that you are well and hope that you will have a very successful year. I am sure that you will be able to do much good for the [Cause] in the coming year.

Yours very truly,

[Signature]

### CALENDAR

Carnival . . . . . November 2  
Banquet . . . . . April 4

### CARNIVAL

The Junior Carnival was held in the Floyd gymnasium, November 2, 1946 at 7:30. A one-act play entitled "Object Matrimony", preceded the carnival. After the play, Earline Davidson and Bob Russell, Queen and King, led the way into the gym. We had Bingo, Fish Pond, Movies, Eats, Prizes, Baseball Practice, Basket Pitching. The Juniors netted approximately \$350 from the carnival.

### BANQUET

The Juniors entertained sixty people at the Junior-Senior Banquet April 4, 1946, in the Floyd gymnasium. A Hawaiian theme was carried out in the decorations: Beautiful bouquets of purple and white sweet peas, candles in pastel shades, program books, and napkins in festive colors added to the gaiety of the scene. Following the banquet, the group enjoyed "Paris Underground", a movie at the Yam as guests of the Juniors. The following program was given:

"Welcome" . . . . . R. T. Toliver  
"Response" . . . . . Paul Gregory  
"Hawaiian Chimes" . . . . . Junior Girls  
"Silver Lining" . . . . . Mr. McAlister

Journal

Monday, July 1st. A fine day, with a light breeze from the west. The temperature was in the 70's. The water was calm, and the sky was clear. We went for a walk in the park, and saw many beautiful flowers. The children were very happy, and played for hours. We also saw many birds, and a few small animals. The day was very pleasant, and we all enjoyed it very much.

## FRESHMEN

Thirty meek little Freshmen entered Floyd High School on August 27, 1946. During the year four more were enrolled but we lost nine of our group so that now we only have twenty-five members.

Of course we expected quite a change from grade school, but we didn't find High School very difficult.

Our first showing in school activities was our annual Freshmen assembly. We enjoyed presenting this very much.

At the semester we found some of us had been having too much fun and not working, but after a gentle reminder from our sponsor, our grades improved.

As a class we have thoroughly enjoyed an active and pleasant year, well filled with sports, fun and studies. Now we are looking forward eagerly to our Sophomore year, hoping to improve in every way.

### SOME INDIVIDUAL NEEDS

A pencil . . . . .	.June

## LUNCH ROOM

The lunch room was opened November 1, 1944, and is sponsored by the Floyd Homemakers Club. When we first organized, we had three ladies working in the lunch room, but we soon hired another to work two hours through serving time. The object of the lunch room is to teach children to eat for health and not just the things they like best.

The club has a contract with the Agriculture Department of the government stating that the government will pay 9 cents for each meal served to a child, but there isn't any aid for adults. To receive this aid there are requirements to be met. Some of these are as follows: at least one cup of fresh whole milk served to each child every day, the menu must be such that child gets one-third of his daily food requirements for health. Rich pastries, fried foods, etc. are not to be served.

A charge of 10 cents a day is made to each child who eats at the lunch room. Out of this is paid all labor, laundry, equipment, salt, baking powder, fish, etc. All aid from the government must go to purchase products which are produced on farms. Sometimes the government sends us commodities of which there are a surplus. This helps us to serve better lunches as it gives us more money to buy other foods. Our supervisor must not count on this aid until it is received and must budget her accounts so that the 19 cents a day meets all costs. There were sixty bushels of peaches and 150 bushels of apples sent to us by the government the first year. We used what we could fresh, then the people of the community met and canned this fruit which has been a great help in making the lunches of greater variety.

This, our second year, we are feeding about 300 persons including teachers, cooks, and janitor, so we have hired another cook to work through the morning to help prepare the food. This makes three workers at the present time and the two part-time helpers.

The ladies of the community met and canned about 400 quarts of vegetables in the fall of 1944. This helped us inasmuch that we were able to buy two new stoves which we needed. There is need for more equipment when it is available, and we think the children would appreciate having forks and knives to eat with. They have not been available so we have to use spoons donated by the children.

*Mrs Earl Butler*

Memorandum

1. The first of the following items, which are all of the same nature, is a copy of the report of the Committee on the subject of the proposed amendment to the Constitution of the United States, which was adopted by the Convention on the 17th of September, 1890.

2. The second of the following items is a copy of the report of the Committee on the subject of the proposed amendment to the Constitution of the United States, which was adopted by the Convention on the 17th of September, 1890.

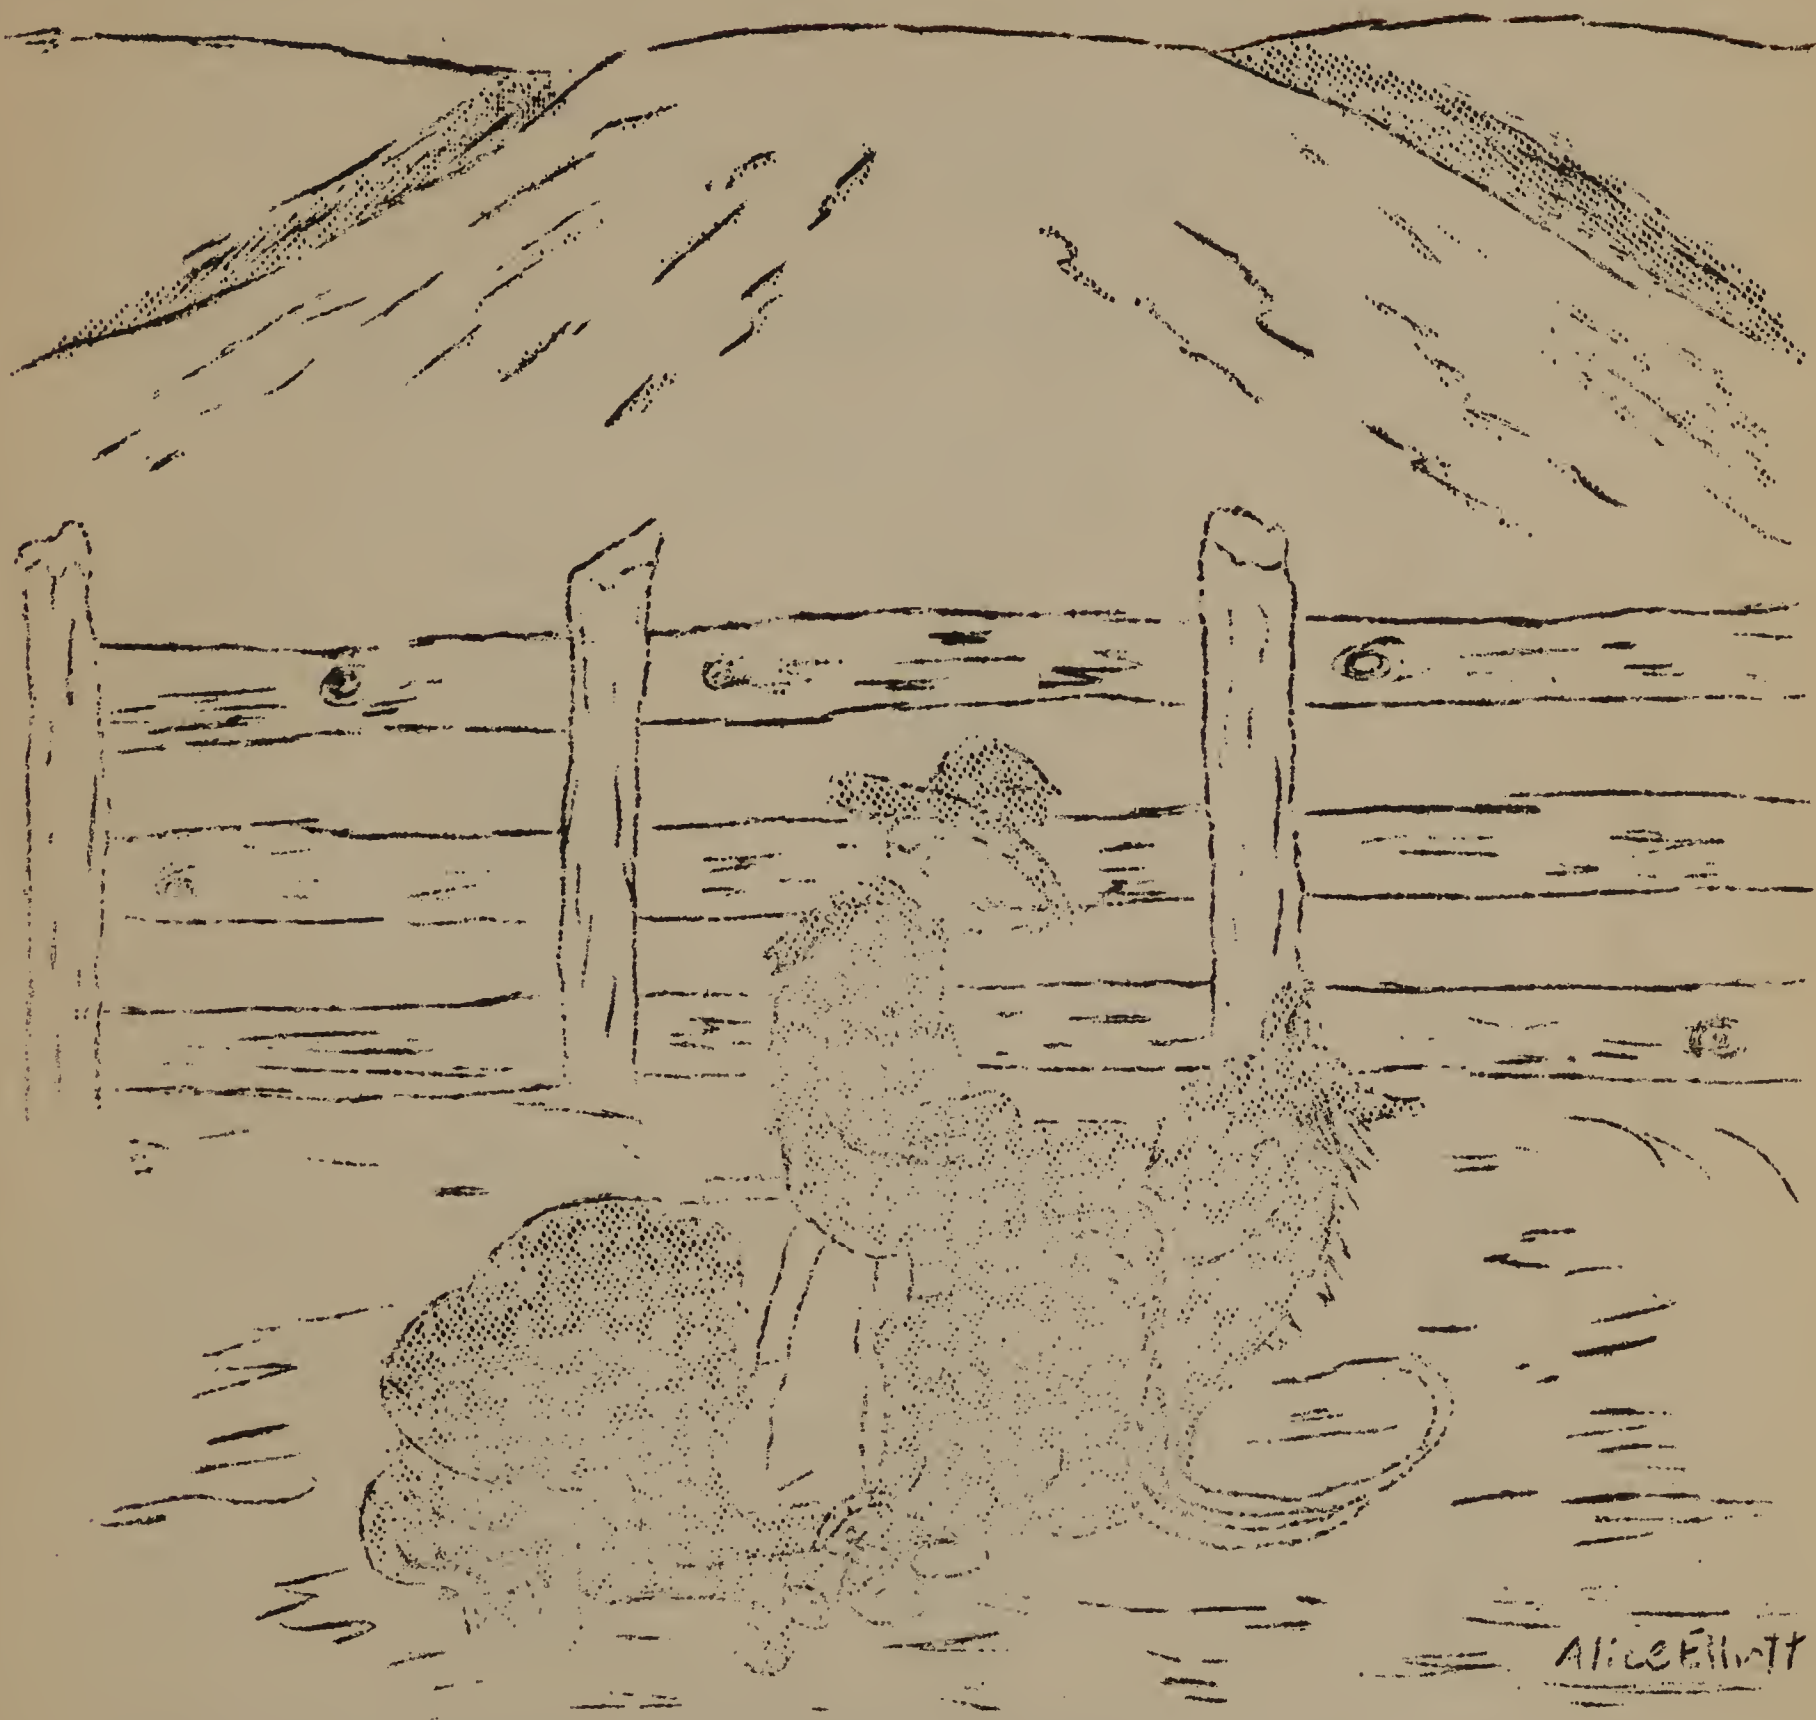

3. The third of the following items is a copy of the report of the Committee on the subject of the proposed amendment to the Constitution of the United States, which was adopted by the Convention on the 17th of September, 1890.

4. The fourth of the following items is a copy of the report of the Committee on the subject of the proposed amendment to the Constitution of the United States, which was adopted by the Convention on the 17th of September, 1890.

5. The fifth of the following items is a copy of the report of the Committee on the subject of the proposed amendment to the Constitution of the United States, which was adopted by the Convention on the 17th of September, 1890.

Very respectfully,  
John M. Butler

## GIRLS' SPORTS

The girls who were always fighting for the Red and Blue were:

Marie Shirley, Oleta Reed, Fayrene Butler, Waunell Craig, Lavell Bilberry, Wynona Haragan, Bobbie Burke, Irene Kerr, Lanell Lee, Loreta Boyer, Natalie Elliott.

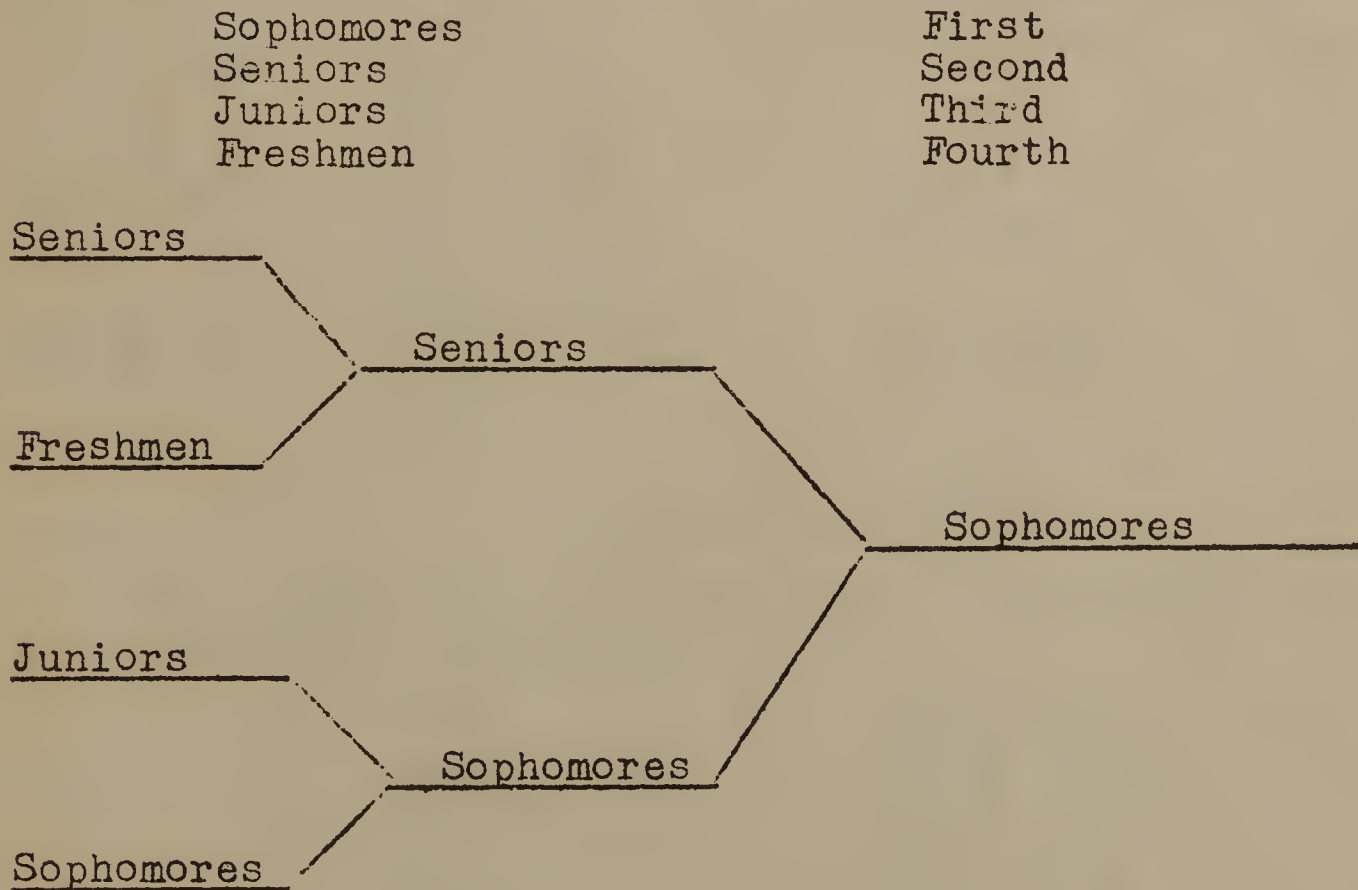

Several matched games were played during the fall. They were:

Sept. 7.	Dora	Here	Won
Sept. 14.	Causey	Here	Won
Sept. 21.	Rogers	There	Lost
Oct. 2.	Dora	There	Lost
Oct. 5.	Rogers	Here	Lost
Oct. 12.	Causey	There	Won
Oct. 19.	Causey	Rogers	Lost

The tournament was held at Rogers Oct. 19.

Playing games with other schools helps to keep up the school spirit. It also teaches true sportsmanship and encourages healthful living. Here's to more play!

Intramural games were as follows:

## TRACK

## JUNIOR HIGH BASEBALL

The Floyd Junior High box scores for the fall of 1945 were scheduled as follows:

Dora -- 10	Floyd -- 4
Rogers -- 6	Floyd -- 15
Causey -- 0	Floyd -- 19
Dora -- 10	Floyd -- 8
Rogers -- 5	Floyd -- 14
Causey -- 6	Floyd -- 36

We went to the county tournament at Rogers to defeat Rogers 10 points. In the finals we defeated Dora 3 to 0 to take first in the county tournament.

### CLUB MOTTO

"Toward New Horizons"

### COLORS

Green & White

### PURPOSE

The purpose of this club is to develop leadership, initiative, social poise and promote good fellowship.

### MEMBERSHIP

The Floyd Home Economics Club roll includes all of the high school girls. They also belong to the National Organization of Future Homemakers of America.

### CALENDAR

The Home Ec. Club meets every second Thursday of Friday.  
District F.H.A. meeting-----November 17; 1945  
Fresmen Initiation-----September 20; 1945  
Mother-Daughter Banquet-----March 8, 1945

### F. H. A. ACTIVITIES

F. H. A. had many interesting programs on the Chinese theme: school demonstration, marriage, family life, arts, funerals, government, play and social customs.

A Chinese tea honoring our Mother was held in the Home Ec. Cottage March 8, 1946. Lanterns, dragons, and foods gave the cottage a Chinese atmosphere.

TRAIL TALK

Handwritten text, likely bleed-through from the reverse side of the page. The text is extremely faint and illegible due to the quality of the scan.

Handwritten text at the bottom of the page, possibly a signature or a date, also illegible due to fading.

## EARMARKS OF THE OUTFIT

Mary Elizabeth--I'll be if I wood  
Iona--Well, I did it!  
Nonie--I'm not suprised  
Neva--Gee whiz Bunny

Mary--Gcod land!  
Marie--Just a Marine  
Paul--Holy cow!  
Wilma--Well if that ain't the limit  
Ladson--By the way!  
Jaenene--What next?  
Weldon--I'll be true to my bachelor  
society

Red--I just can't say no  
Oleta--Why should I care?  
Jim--Hubba Hubba!  
Wynona--That's the way I'd  
do it.  
Ailene--Hum, I guess  
Martha Jo--Fiddlesticks.  
Fayrene--Good-Honk!  
J. D.--You don't say?  
Mr. McAlister--O, My goodness!  
Mrs. Carmichael--May I have  
your attention, Pleas

## SEEN OVER THE CORRAL FENCE

Mary Elizabeth wearing a ring  
Marie looking at a sailor  
Iona buying a ranch  
Jim with levis and boots

Red in the Glee Club  
Paul staying at home on Sat. night  
Mrs. Carmichael giving F's in  
English IV.

Ladson with out any thing to  
say  
Weldon being married  
Wilma in a club coupe  
Jaenene on "Queen for a Day"  
Fayrene in General Business  
Mary riding a horse  
Oleta being sleepy  
Nonie being six foot  
Neva without a picture of  
Johnny  
Ailene liking New Mexico

## AT THE CATTLE RING

Plenty of class spirit.

A swell sponsor

Some good report cards

25 pig tails and some suckers

6 grand boys (nice looking, too)

The Three R's (Reed, Red, Rusty)

A variety of tones in laughs and giggles

A Team (Joan & Bob) (Dickie & Gwen) (Betty & Eddie)

Plans for great things to be done.

The charm of an Autumn day in New Mexico

Martha Jo: He wears my photograph over his heart and it stopped a bullet while he was fighting in Crete.  
Lenoria: I'm not suprised, dearie. It would stop anything.

Teacher: I wish you wouldn't whistle while working.  
Fayrene: But I'm not working.

Oleta: What would you say would be the difference between a little boy and a dwarf?  
Marie: There might be alot of difference.  
Oleta: What for instance?  
Marie: Well, the dward might be a girl.

Rusty: While I was on leave I met a gal whose father is the best shot in town  
Jim: What does that make you?  
Rusty: Her fiance.

Sales lady: What a darling hat. Really it makes you look ten years younger.  
Mrs. Johnston: Then I don't want it. I can't afford to put on ten years every time I take off my hat.

Mr. Jones: (Getting his fingers running through his bills  
Jack G: Don't you know that money is covered with germs?  
Mr. Jones: No germ could live on my salary.

Margaret: Next to a handsom man what do you thind is important?  
Verda Lou: When I'm next to a handsome man I can't think.

Mrs. C: what is a half of eight, Paul?  
Paul: Which way teacher?  
Mrs. C: What do you mean?  
Paul: On top or sideways?  
Mrs. C: What difference does it make?  
Paul: Well, the to; half of eight is zero, but half of eight sideways is three.

Biology Teacher: How do you think iron was discovered?  
Mary E: They smelt it.

Mrs. C: Who said, "Give me Liberty or Give me Death.  
Glenda: Must have been Soloman--  
The Bible says he had 700 wives.

Mrs. Johnston: Irene have you given the flowers fresh water?  
Irene: No mum! They haven't finished what I gave them yesterday.

Irene had a little took; she placed it on a seat--  
A teacher, Pierce by name, sat down and jumped about five feet.

1. The first part of the report is devoted to a general survey of the situation in the country.

14. The fourteenth part of the report is devoted to a detailed examination of the various branches of politics.

15. The fifteenth part of the report is devoted to a detailed examination of the various branches of law.

F.H.S. Headquarters

Dear Pards,

Now, for the last ink talk. It has been a long vigil - this riding herd is no snap. Some nights have not been starry; there have been some dustors and signs of quick sand, but we haven't back-tracked. Everything is under control; we've learned north from south--a docile, trail-broken bunch we've become.

'46'  
Our brand, FHS, we leave at Headquarters. Remember the Motto of our Strawboss, "The secret of trailing cattle is never to let your herd know that they are under restraint."

Keep up the spirits of the outfit, for stampedes are generally due to negligence. Thanks for everything.

Yours,

The Staff  
The Sponsor
